This is an open meeting available to all ICC and CCPA members to attend via teleconference. It is intended to be a virtual sharing circle and opportunity to connect with other ICC members.

This open call, we will be hosting a discussion on the recently launched Issues Paper #2: "**Call to Action: Urgent Need for Improved Indigenous Mental Health Services in Canada.**"

We encourage you all to review the Issues Paper in advance to the meeting, as we are interested in hearing your feedback and insights as well as your ideas on how this paper can be utilized in future ICC/CCPA initiatives and advocacy work.
