

Potential Marriage and Family Therapy Chapter

Would you be interested in joining a Chapter dedicated to marriage and family therapy?

Many members belong to one or more Chapters depending on their field of work, their location or their interests. When you become a member of a Chapter, you receive email updates from them in regards to events, advancements in the field and many other information items. You join a community of like-minded practitioners and have the opportunity to connect on topics that matter to you. During conferences, you also have the chance to meet and work together on issues involving that Chapter's particular mission.

If you are interested in joining this Chapter, please email memberservices@ccpa-accp.ca confirming your interest. If you are also interested in sitting on the executive, please let us know!
