CONCEPTUALIZING AND TREATMENT FOR CONCURRENT DISORDERS: SEEING THE WHOLE CLIENT

November Full Day Workshop

November 7, 2020
9am - 4pm

ZOOM Online Conference
6 Continuing Education Credits

Presented by Caroline Elson, M.Ed, RP, CCC-S

Join us for a day of learning to access, conceptualize and treat clients with an integrated model of mental health and addictions work. Theories of learning will draw from Trauma-informed care, Stages of Change, Transpersonal and Motivational Interviewing. Specific Addiction tools and resources will be explored in this experiential workshop. Included in the workshop will be 3 primary learning goals: a review of models of conceptualizing Concurrent disorders; increasing comfort in accessing problematic patterns of coping; ways of integrating Addiction specific resources into treatment model.
