This 12-hour, online training was developed for mental health professionals who are ready to move beyond introductory-level training in Dialectical Behaviour Therapy.

If you are looking to take the next step implementing DBT in your clinical practice, this workshop will help you:

- Use DBT case conceptualization formulate a clinical case
- Apply DBT principles to common problems in daily practice
- Employ validation and dialectics strategies to get "unstuck"
- Coach patients effectively when they are in crisis
