The Canadian Breast Cancer Network is Canada's ONLY patient-directed National BC health charity. We provide information/education to patients/families, advocate for changes that will improve the lives and survival rate, and create opportunities for patients to connect. Our Patient Friendly website publication for those newly diagnosed will help increase your understanding of your diagnosis, treatment options, what to expect, Intimacy Workshop, Surgery guide, financial navigator, MedSearch, Never too Young handbook, and Metastatic BC Handbook for those living with Stage IV BC. Hard copies can be ordered by emailing **cbcn@cbcn.ca** or calling **1-800-685-8820**.

## Intimacy After Breast Cancer: Starting Over

Developed by Dr. Sally Kydd who experienced the challenges one might have during the journey of cancer designed this free program to change this reality! CBCN Volunteer facilitators who have been through the journey of BC host the day long interactive course.

Many hear the term "Intimacy" and only think of the sex act yet intimacy includes so much more than one aspect. This workshop has received only positive feedback from all aged participants, single or committed. It is an opportunity to ensure well being and self esteem, address stress/depression, in a safe, non-judging confidential, environment.
